DISCOUNTS

ON ORDERS RECEIVED BEFORE MARCH 15th

We allow a discount of 5% on retail orders totalling \$5.00 to \$10.00; 10% on retail orders totalling \$10.00 or more.

This is not a cash discount, but a discount in glad bulbs of your choice.

If your retail order totals \$5.00 to \$10.00, add to your order 5% of the total in bulbs of your choice; if your retail order totals \$10.00 or more, add to your order 10% of your total in bulbs of your choice.

This discount applies to glad bulbs only, and does not apply to retail items marked "No Discount" or to wholesale orders. "No Discount" items cannot be selected as extras.

Besides the bulbs you select for your discount, we include **SURPRISE EXTRAS**, in every shipment, the larger the order the more **EXTRAS**.

IN ADDITION with every \$5.00 retail order we will include a bulb of either **DREAM QUEEN**, a wonderful deep salmon with beautiful gloxinia throat, or **BASKET PURPLE**, a heavy textured ruffled rich rosy purple. 2 bulbs with a \$10.00 retail order etc. Largest bulbs with first orders.

ORDER EARLY

Although we have a large assortment at the start of the season, we always sell out on some varieties. Orders filled in order of booking.

New 1955 Introductions

SABLE

(370 Lins 1955)

Seedling of (King Lear X Melrose) X Burma

Heavily ruffled deep purple, which looks as if the petals were carved out of purple plastic, so deep and perfect is the color penetration. Builds 4 ft. slender plants with 22 inch flower heads of 18-19 buds. Opens 6-8 of these lovely blooms with most of the rest of the buds in color.

To show how others grow SABLE, the NAGC test sheet from Detroit, Mich. (S.E. Mich. Glad Soc.) shows the following: "3 corms planted May 15th. Bloomed Sept. 5-6. Flower head 26-26-26. 19 buds each spike, 8 open in field each. Color description "A PURPLE BURMA". Color value 90. Floret form: Wide open, heavy textured and wonderfully ruffled. Stem excellent. Grown in clay loam, PH 6.4. Fertilizer 5-10-5. Grown arid. Overall appraisal (AA). Special comments: ONE OF THE BEST I GREW THIS YEAR. Dry and hot too. Should be a wonder under ideal conditions."

SABLE SHOULD WIN EASILY IN CLASS 370.

Any size bulb \$2.00 One bulb and 10 bts. \$4.00 No Discount

Sweetest Maid

(430 Lins 1955)

Seedling of Elizabeth the Queen X (California X Aladdin)

Extremely ruffled light salmon. The most ruffled glad we have seen so far, and also one of the sweetest. Grows 50 inches tall normally, (although Mich. Trial Garden (NAGC) report shows it 60 inches tall). Opens 6-8 of these beautiful extremely ruffled bloom on 22-28" flower heads on always straight plants. 5" flowers.

1954 NAGC TRIAL GROUND RATINGS: Excellent in Wash. Superior in Mich. Excellent in N. J. Good in Canada. Good in Ohio, where they had 57 days drought.

Any size bulb \$2.00 1 bulb and 10 bts. \$4.00 No Discount

Pink Wedding

(560 Lins 1954)

Dream Castle X Treasure Island

Clean light rose pink blending to lighter throat. The plant is taller than either of it's parents. Grows 55" tall with 24" flower head of 18 buds, opening 6-8, 5½" florets of good substance and texture.

We had massive spikes of PINK WEDDING from even the smaller bulbs last year. It is an easy propagator and a good commercial prospect. CUTFLOWER GROWERS ARE INVITED TO TRY THIS at this special trial offer.

Manypetals

(Gosling)

Described by the introducer as a deep rose double, with flaring florets, on long stems. Much taller than MULTIPETAL, with 14 florets, of the color of BURMA ROSE on strong stems, from mature bulbs. The rose red petals are twisted and lacinated. Here is really the EXOTIC NEW TYPE OF FLOWER you will love.

New 1955 Introductions

The Fairy Giant

(Gosling)

(Fairy Dragon X White Dragon)

Described by the introducer as, THE GIANT OF THE DRAGONS. 6-8 hooded, Huge florets, feathered with pink, on lavender base, with spurs like needles, pointing backward from the hood, and 4 to 5 extruded bristling buds above, in perfect form and facing. The heavy flowers are tightly attached, but the huge burst of flowers are so massive, they should really be staked to get a perfect spike.

Bonnie Prince

(262)

From H. J. Barker, Greenfield Park, Quebec

Described by the introducer as a perfectly darling medium rose miniature, heavily ruffled and needlepointed. Grows about 36" with 16 buds, carrying 8 open and 6 in color. It has won more blues for specimen bloom and baskets than any miniature in history. Easily the greatest rose miniature ever introduced. Slightly lighter than Elmers Rose but much brighter. Whether or not you have ever grown miniatures, this little glad will "SEND YOU" as the Gals say. A fairly good stock permits this low price, which is a rare bargain.

Bird of Paradise

(Sommer-Koerner) 1954

THE ORCHID GLAD

IS 25 YEARS AHEAD OF THE TIMES. There is nothing like it. If the term orchid can be used in connection with glads this new creation is certainly eligible.

It is practically impossible to convey, to the reader, an adequate description of this astonishing variety. It must be seen to realize what Sommer and Koerner have accomplished.

The 6 inch and larger bloom, which is formed like a Christmas Poinsettia, with all petals of about equal size, has extraordinary heavy substance and the petals are serrated and lacinated. A coral red spot in the heart of the bloom looks as if red wax had been dropped in. The overall color could be described as creamy apricot.

Imagine what the makeup artist and arranger can do with a flower like this. Top Minneapolis and St. Paul florists proclaim it a "natural" for exotic corsages and arrangements.

Fortunately for the breeder, Mr. Sommer says its pollen produces seed on other varieties, thus, BIRD OF PARADISE could be the key to an entirely new type, unlike anything we had in the past. The plants are 3-4 feet tall and each will produce around 10-12 of these orchid like bloom. This would be cheap at a \$10.00 introductory price, considering it is an entirely new type and that the bulbs stock is small.

L 25c; M 15c; Bts. 10-15c

PACTOLUS (417 K. & M.) Spectacular apricot peach yellow with large vivid orange blotch. Very showy and in demand. **L 2-25c; M 3-25c**

PEACH GLOW (416 Harris) Large round buffy orange of good texture and substance. Considered one of the best in this color. **L 25c; M 15c; S 2-15c**

RECOMPENSE (410 Fischer) Yellow with red brush mark in throat, which can open more bloom at one time than Spotlight. **L \$1.00; M 75c; Bts. 5-25c**

ROBERT ALAN (412 Lorenz) Large beautiful clear deep yellow on nice tall plants with good flower heads. We think it is one of the best yellows in this shade. **L 15c; M 10c; S 3-20c; Bts. 20-20c**

YELLOWS AND BUFFS continued—

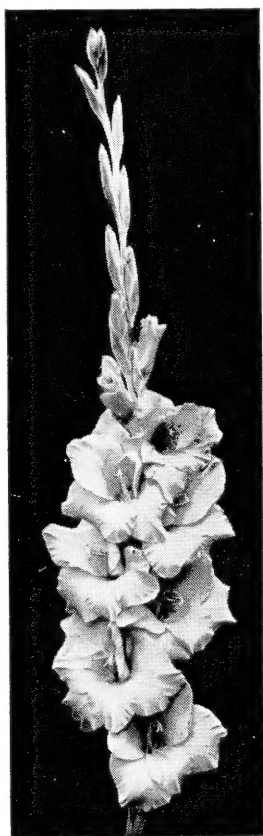

SCEPTRE (410 White-Mode) A new yellow from the introducer of Eliz. The Queen Opens 8 ruffled, perfectly placed, well attached bloom on 23 bud flower heads on 5 ft. plants. For us produced 4 ft. blooming spikes from bts. Looks like a coming commercial and exhibition variety. **L \$3.00; M \$2.00 Bts. 35c each, 10 for \$3.00**

SEQUIN (410 Palmer) Tall plain petaled long headed yellow. A fine cutter and easy grower. **L 2-25c; M 3-25c**

SPOTLIGHT (413 Palmer) Probably the most popular yellow. Color is brilliant medium deep yellow with small scarlet feather. Still one of the best. **L 2-25c; M 3-25c; S 5-25c**

TERRIFIC (410 Wilson) Tall canary yellow which can open 10 or more of it's 20 buds at one time. Makes a good cutflower. **L 25c; M 15c; S 2-20c; Bts. 15 for 15c, 100 for \$1.00**

VANITY FAIR (Harris 560) Large wide open, needle pointed buff pink with cerise throat marks. Opens 8 on 22 inch flower head on 5 ft. plant. AHM winner. **L 35c; M 25c; S 15c; Bts. 10-25c**

TROCADERO

Orange

See Also Australian and Small Variety List

CHIEF PONTIAC (524 Snyder) Large scarlet orange on tall plants. **L 2-30c; M 3-25c**

DAISY MAE (521 Lins) Tall prize winning orange with cherry blotch. **L 2-25c; M 3-25c**

FIRE OPAL (422 Fischer 1954) Nicely ruffled clean orange with yellow throat. **M 75c; S 50c; Bts. 2-15c**

FOREST FIRE (420 Harris 1954) Tall light orange. Another eye level variety. Grows 60 inches tall with 8 open in the field. **M \$1.00; S 50c; Bts. 25c, 5 for \$1.00**

GINGER (422 Fischer) Ruffled orange salmon with yellow throat and red blotch. **L 25c; M 15c; Bts. 10-25c**

HERALD (316 Palmer) Deep orange yellow with orange salmon shadings blending to large capsicum red throat blotch. One of the new Butterfly type introduced by the world's leading breeder. KING SIZE (531 Hartman) Noted for it's tall strong plants and large bloom. The color is pink with a carmine mark on a cream throat. **L 75c; M 50c; Bts. 2-15c**

MAGIC WAND (440) Cool clean light orchid pink, no marks. Can open 9 of it's 22 buds at once. Tall plants. Due to it's good color and special floret form, has a personality all it's own. **L 2-25c; M 3-25c**

PINKS AND SALMONS continued—

CORAL GABLES

MARVELOUS (443 Lins) One of the most beautiful of all glads. The exquisite heavily ruffled wide open florets are deep shell pink with a scarlet throat mark. The substance is as heavy as a sea shell. The plants are always straight and the florets are always correctly placed. Highly rated by NAGC Trial Gardens. See picture on front cover.
L 75c; M 50c, 5 Med. for \$1.50; S 20c; Bts. 10 for 75c

MY DEAR (440 Sisson) Tall early shell pink. Opens 6 ruffled 5" bloom on good plants.
L 2-25c; M 3-25c; S 5-25c; Bts. 100 for 50c

L 25c; M 20c; S 2-20c; Bts. 25-25c

NORDIC QUEEN (540 Fischer) Light pastel flesh pink with a smooth finish and good color penetration.
L 35c; M 25c; Bts. 10-25c

PHAROAH (530 Higgins) Large glowing deep apricot salmon and yellow blend. Richer color than Picardy.
L 2-25c; M 2-25c; S 5-25c; Bts 25-25c

PINK CHIFFON (440 Fischer) Fine florist color which is a mild mellow orchid pink. Blooms among the earliest varieties.
L 75c; M 50c; S 25c; Bts. 3-15c, 50 for \$1.50

PINK DIAMOND (Fischer 440) Nicely ruffled mellow pink on straight spikes. 1954 introduction.
M 75c; S 50c; Bts 2-15c

POLYNESIE (K & M 430) Tall salmon which makes an excellent spike.
L 2-30c; M 3-25c; S 5-25c; Bts. 100-50c

ROSALIND (430 Palmer) This beautiful Azalea pink with cobalt yellow throat, from the master hybridizer Palmer, can build towering spikes. Opens 8 ruffled heavy textured bloom on 21 buds flower heads. **WON CANADIAN SILVER MEDAL** and British Glad Soc. Award of Merit.
M \$1.50; S \$1.00; Bts. 2-30c, 10 for \$1.00

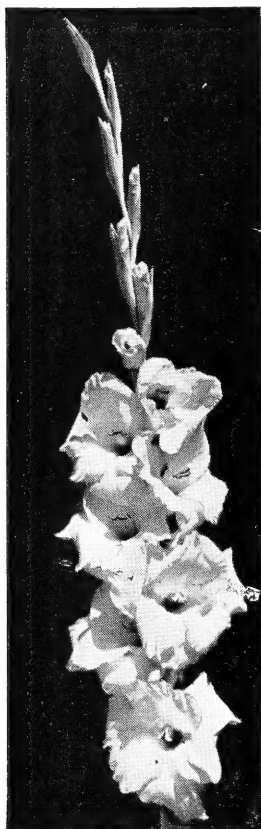

ROSEBUD PICOTEE (460 Fischer) Color and form are the distinguishing feature here. Delicate rich pink blending into a blend of deeper rose at petal edges. Not a color flecking but a clean deeper blend.
L 50c; M 35c; S 25c; Bts. 10-25c, 100 for \$2.00

SOUTHERN BELLE (482 Fischer) Slightly smoky salmon pink with prominent white throat. Fine performer. **L 25c; M 2-30c**

SPIC AND SPAN (432 Carlson) One of the very best of glads in any color. Tall plants with long heads opening many ruffled deep pink florets. There are not many glads which can come up to this popular variety. Excellent cutflower and show flower. **L 2-25c; M 3-25c; S 5-25c**

SUMMER CHARM (540 Lins) A very delicately tinted variety. The edges of the petals are blush pink blending to a creamy blush inside. A delicate gloxinia throat peppering of pale lavender adds sparkle to the bloom. Opens 8 or more on tall plants. Florets are ruffled and fluted. The color blending is not a series of flecks but a solid color blend. Some regard it a better florist flower than Corona or similar varieties. This is one of our good cutflower varieties.
L 40c; M 25c; S 3-25c; Bts. 10 for 40c

PINKS AND SALMONS continued—

TREASURE ISLAND

TREASURE ISLAND (540 Lins) Gorgeous light orchid pink, beautifully ruffled, wide open florets. One of our very best light pinks. Has fine form and color. Spikes are always perfect, never a misplaced floret. Another of our good cutflowers.

L 2-25c; M 3-25c; S 3-25c; Bts. 100 for 50c

VISION (331 Roberts) A beautifully ruffled light salmon with light yellow throat. Besides being very beautiful, it could become a leading show flower due to it's ability to open a large number of perfect bloom on good spikes.

L \$1.50; M \$1.00; S 50c; Bts. 20c, 10 for \$1.50

WAX CANARY (530 Woods) Excellent ruffled light buffy salmon florets of good substance and texture. Opens 6-7 wide open brilliant florets on good plants. One of the better 1954 introductions.

L \$1.50; M \$1.00; S 75c; Bts. 25c, 10 for \$2.00

Rose

See also Australian and Small Varieties List.

ADORABLE (561 Woods) Large rosy lavender with fuchsia feather on lower petal. S 20c; Bts. 10 for 40c

BURMA (564 Palmer) Heavily ruffled deep rosy red. This is a Palmer Masterpiece and is loved by all.

L 2-25c; M 3-25c; S 5 for 25c

- WONDEROUS** (542 Burns) Medium shade of pink with blushed throat bordered cream. **L 2-30c; M 3-30c; Bts. 10-30c**

TREASURE CHEST

This unlabeled collection, in many colors and types, is popular with our customers, who don't want to bother growing their glads under name but who do want nice glads. If these varieties were bought under name they would cost considerably more. Many varieties included are obtainable only from us. A wonderful value. Prepaid in U.S.A.

"Last year I bought your TREASURE CHEST of medium bulbs and the results I had with them were really amazing. My neighbors kept closer "tab" on them than I did because they just couldn't believe that I had gotten such beautiful blooms from such an inexpensive collection." Mrs. D. D. Kirby, Ohio.

"In the past two years I have bought your TREASURE CHEST collection. The results from them far exceeded my expectations". F. L. Howell, N. J.

DARK COLORED COLLECTION

We are again offering this dark colored collection because many people do not care for white or light pastel shades. This is an unlabeled collection of dark varieties, including some lovely ruffled velvety reds and maroons, worth many times the price at which they can be had in this collection.

SEEDLINGS

We grow thousands of seedlings each year, produced from hand pollinized crosses, using the best breeding stock available. Inasmuch as we have a new lot of seedlings coming on each year, which must be planted and checked at blooming time, we must make selections from the first blooming. If we would grow them again, we would undoubtedly find as many good ones in the second blooming as we did in the first blooming. Therefore, there are many wonderful seedlings in our 4X seedling mixture. At digging time we take out the very small percentage tagged for future consideration, all the rest are lifted and mixed together in one grand 4X mixture.

We know the seedling bulbs we offer will give those, fortunate enough to get in on them, much pleasure. If you find one you would like to name, which is not at all unlikely, that seedling is your property, to do with as you please. Last year one of our customers won the GRAND CHAMPION RIBBON at the Hennepin county fair, with one of these seedings.

"This spring I bought 50 of your 4X seedling bulbs. So far 8 of these seedlings have bloomed and I never in my life have seen such beautiful colors as these seedlings have. All who have seen them, rave over them. I want 100 more of your seedlings for next year and some of my friends also want some. Let me know at once if you will book them for next spring, so I can send you the check now, so as to be sure to get them." Mr. G. A. Knauss, Ohio.

Miniature and Small Glads

- ALECIA** (200) Glistening pure white round florets, even stamens are white. Florets lie flat against the stem. Looks like one of the nicest white miniatures.
L 75c; M 50c; 1 bulb & 10 bts. \$1.50
- ATOM** (236) The most popular red miniature for corsages and arrangements. Petal edges are bordered white. L 2-25c, 10 for \$1.00; M 3-25c, 10 for 70c
- BLONDIE** (306) A ribbon of ruffled creamy florets on tall slender stems.
L 2-25c, 10 for \$1.00; M 3-25c, 10 for 70c

Dragons and Other Novelties

NO DISCOUNT

Most of these were produced by Mr. Gosling. For something entirely different for arrangements and corsages these will fill the bill as they are an entirely different type and form of flower.

ALONE Most unusual of all glads. Double, ruffled, folded and spurred. Is the pollen parent of a new class of glads, such as ruffled, dragons, etc. Pretty salmon Very rare. \$1.00 per bulb.

DINASAUR (Gosling) This is variable, ranging from sprawling blossoms like Grey Dragon to spurred double florets but always in a bright orange pink. **Med. 35c**

FAIRY DRAGON (Gosling) Mr. Gosling says this is a satisfactory seed bearer, so can be used in hybridizing. Cupped florets usually bearing elfin needles and spurs in mauve lavender. **L 25c; M 20c; S 15c**

FANTASY (440 Rich) One of the best. Large curled and spurred florets of a beautiful chartreuse and salmon color combination on good regular height plants. **L 75c; M 50c**

GREY DRAGON (Gosling) This orchid type glad makes giant sprawling florets folded and spurred in lavender grey smoke. Very odd and interesting. Valuable in floral work. **M 35c**

NOVELTY QUEEN (Dale) This was introduced at \$10.00 per bulb. Good salmon Picardy color, is spurred like a Columbine, folded and creased and on a nice plant. **75c Any size bulb**

PINK SPURS (Gosling) An odd taller Dragon with mottled spurred buds opening to coral pink cups. **M 35c**

SHAGGY DRAGON (Gosling) Large bright salmon orange double having 12-15 petals in cupped face-ups. **M 35c**

WHITE DRAGON (Gosling) Globular creased and crinkled florets of heavy texture in ivory white with a pink dot deep in the throat. The complex spurs of the clustered bloom give an appearance of doubleness, making a rare delight for floral arrangements and corsage work. We think this is one of the nicest dragons. **M \$1.50; S \$1.00; Bts. 1-25c, 5-\$1.00**

Testimonials—

If all your glads are like TROCADERO and TREASURE ISLAND, they must be good. As you can see by my order I intend to find out. Maurice Walter, Ill.

I have always enjoyed your careful descriptions as much as I have enjoyed your originations. DAISY MAE still tops my orange list with garden visitors and WHITE TOWER is tops with customers too. Geo. Webster, N. Y.

We are very proud to have WHITE TOWER in our list. It is certainly worthy of it. J. Larus, Conn.

Pacific Strain Of DELPHINIUM HYBRIDS

This strain of Delphinium has become a standard for the highest quality in Delphinium all over the world. Instead of making extravagant claims, we would like to let our flowers speak for themselves when you grow them.

Experiments have proven that young plants bring far better results than one or two year clumps, which sometimes are quite exhausted upon arrival and it takes a year to get them re-established, during which time the flowers are not at their best.

YOUNG PLANTS SHIPPED WITH SOIL ON THEIR ROOTS BRING FAR BETTER RESULTS in a shorter time. You can expect good bloom the first summer.

ASTOLAT — A new creation. Color variations extend from pale blush thru all shades of lilac pink to deep raspberry rose with large fawn and black bees in contrast.

BLACK KNIGHT — Darkest violet. The velvety individual florets are 2½ to 3" in diameter of beautiful round form. Very long flower head. A true show flower with black bees.

BLUE BIRD — The clearest medium deep blue with white bees. They come true to color and carry well formed 2½" flowers on very long graceful spikes.

GALAHAD — The greatest achievement in giant whites. Has all the qualities expected of a fine Delphinium. The clear white flowers with white bees are of large size, often reaching 3" in diameter combined with glistening texture.

GUINEVERE — A clear, pink lavender self, with white bee, with very large individual flowers averaging 3" in diameter. This is a true exhibition type and a beautiful garden plant.

If you have not grown these modern delphinium, you have a thrill coming. They make a grand showing in the garden and are excellent cutflowers. Established plants produce towering spikes early in the season and a second crop later.

Your choice of varieties. Arrival in good growing condition, assured.

Tuberous Begonias

Giant Double Camelia Type

These are among the most gorgeous of all summer flowering bulbs and they are easy to grow. All they want is rich mellow soil and be planted where they do not get the hot sun. Wonderful for flower boxes, urns, or planted in beds. The flowers are very large, come in many colors and are beautifully formed, like a giant camelia and they bloom all summer long. If you have not grown Begonias, you have missed something. We ship large bulbs, not the small rejects, so often offered. Cultural directions included.

Choice of: CRIMSON—WHITE—COPPER — ROSE — SCARLET — YELLOW — SALMON and PICOTEE which are blends of pink and white with contrasting edges.

White Regal Lily

One of the finest Pure White Lilies and easy to grow.

A vigorous grower, attaining a height of 4 ft. with as many as 20 bloom on established plants. The new WHITE REGAL is pure white with a pure canary yellow throat and is very fragrant. There is no smudgy dark color on the outside of the flower. It has a much better formed bloom than the Easter Lily, the flower of which is so long that it seems out of correct proportion.

The White Regal is a hardy garden lily and can be planted among your perennials. Be sure to try this.

Peonies

These new peony creations are the most gorgeous of all flowers. Comparing them with most of the older varieties growing around many homes, is like comparing the Model T Ford with the 1955 models.

They are so hardy they usually outlive the planter. They are as beautiful as a large rose and many are as fragrant as a fragrant rose. They do not require continuous dusting to keep them healthy. They do not winter kill. All they require to produce the most gorgeous bloom each year is clean cultivation. Because LINS PEONY ORIGINATIONS are regarded as among the world's most beautiful, they are found in most distinguished peony collections. If you have room for one or more peonies, you will never regret planting one or more of these gorgeous flowers.

It takes 12 to 15 years to propagate a new peony, therefore they cost from \$5.00 to \$15.00, however the cost figured over a lifetime of pleasure is a good investment.

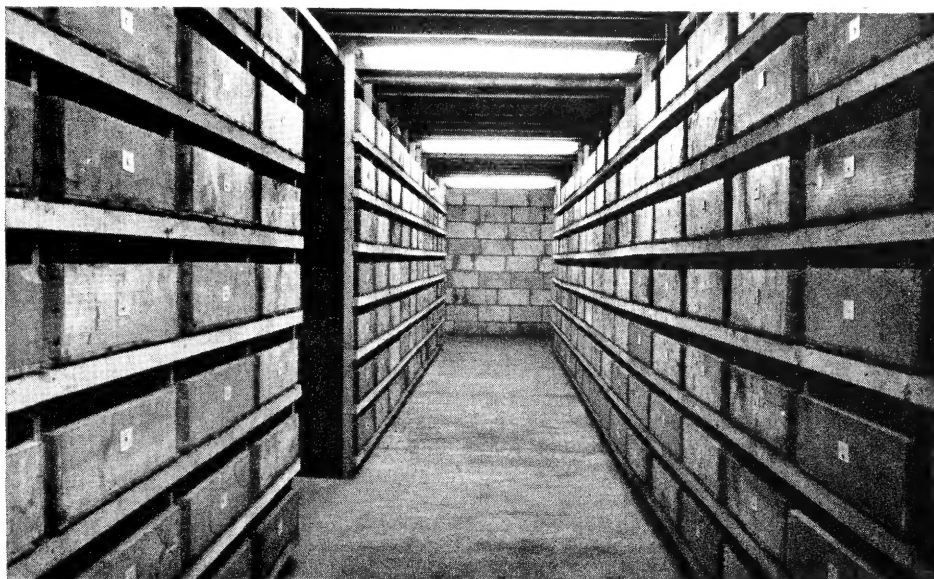

MARCELLA

Marcella, A Lins Origination Won the American Home Achievement Medal in 1952.

The "HANDBOOK OF THE PEONY" issued by the American Peony Society, containing all there is to know about peonies, and which describes and prices our peonies is available from us for 25c which price will be refunded with your first peony order.

New Doerr's Doubles

SEE COLOR PICTURE

NO DISCOUNT

Mr. Doerr worked many years to produce DOUBLE GLADS, in fact has devoted his efforts exclusively to DOUBLES. He has done an enormous amount of experimental work. After tracking down and using hundreds of so called "doubles" in his experiments, most of which resulted in failure, he found that using KOERNER'S MULTIPETAL, as one of the parents, gave him surprising results.

Some of his achievements were shown at the 1954 Rochester, Minn. International Show, where his display of DOUBLES, made up in arrangements, corsages, etc., was a revelation to thousands of show visitors.

COLOR PICTURE ENCLOSED — SHOWS SOME DOERR DOUBLES

KOERNER'S MEMORY (Doerr 1955)

This peaches and cream 18 petal double is a seedling of E. C. Cole X MULTIPETAL and grows 40 inches high. Opens 4 on 12 bud spike. These doubles do not need a 20 bud spike as they are something entirely different from the ordinary glad. Mr. Doerr says this is valuable in breeding.

Any size bulb \$2.00 Bts. \$1.00

SISTER ELIZABETH KENNY (Doerr 1955)

This beautiful 8 petaled frilled double white is a seedling of Wedgwood X Multipetal and is simply wonderful for artistic makeup work, corsages, etc. A variety of great value which florists will use in quantity as soon as available.

Any size bulb \$5.00 Bts. 50c each

FRED PFAENDER (Doerr 1955)

This is a 4 inch, 12 to 18 petaled double yellow, the color of Spotlight and is a seedling of Spotlight X Multipetal. It grows 40 inches tall.

Any size bulb \$3.00 Bts. 3 for \$1.00

FRILLS OF PINK (Doerr 1955)

This beautiful 12 petaled double frilled pink makes an exquisite individual floret. It has proven valuable in breeding. A seedling of Beauty's Blush X Multipetal. A real find for floral work.

Any size bulb \$2.00 Bts. 4 for \$1.00

NO. 962-16 (Doerr 1955)

The beautiful pink florets of this seedling are ball shaped and oddly formed. Valuable for breeding and floral work. Same parentage as FRILLS OF PINK. Grows 40 inches high.
